BEANSTALK MANAGEMENT ENERGISES GENNEXT'S SEARCH FOR PHOTOVOLTAIC SOLAR PARK INVESTMENT PARTNERS

Beanstalk Management, the innovative corporate finance house, has been appointed exclusive advisor to Gennext, who have successfully secured licences to develop photovoltaic parks in South East Europe – with short-term investment opportunities in Greece.

Beanstalk Management is facilitating the identification of suitable investment partners for Gennext, making full use of its sector expertise and strong links with TMT (Technology, Media and Telecommunications) and the Clean Technology sector in particular.

“This is an excellent opportunity for investors looking for healthy returns,” said Matthew Byatt, Director at Beanstalk Management. “South East Europe is especially attractive to potential investors in photovoltaic technology with its well-structured licensing programme, generous feed-in tariffs and subsidies, and an ideal climate. We are delighted to be working with Gennext on their solar park developments as Greece is the next emerging photovoltaic market in the European Union.”

As this opportunity is certain to attract the attention of a wide range of investors, interested parties are urged to contact Beanstalk Management by the end of June on +44 203 239 0118 or m.byatt@beanstalkmanagement.co.uk.
